TSWG Q&A - 12/5/19

1. How are Child Orders used and are they required?

2. Will FINRA CAT allow the use of an SSH-Key rather than a password?

3. What date will the prod environment be open for file submission?

4. What programs can firms use to support bz2 compression for SFTP file transmission?

5. If a record is linked, and a firm initiated correction breaks the existing linkage, will CAT provide feedback for linkage errors?
